

# ADMINISTRATIVE OFFICE TECHNOLOGY, A.A.S.

The Administrative Office Technology program with concentrations in accounting, legal, medical, and medical coding/billing concentrations in Administrative Office prepare students for office positions in a variety of businesses, including accounting firms; local, state, or federal government offices; and health care facilities. In each concentration other than medical coding/billing, students complete a cooperative work experience (internship) to further prepare them for the workforce.

The AOT – Accounting Concentration provides students with the accounting and data entry skills necessary to pursue positions such as an administrative assistant in an accounting office, an office worker in a financial institution, and other similar positions. Students are required to take the full range of AOT courses, as well as two foundational accounting courses and a course in computerized accounting. At the end of their program, students will be placed in a cooperative work experience (internship) to further prepare them for the workforce.

Students in the AOT – Legal Concentration complete AOT courses, as well as Business Law and American Government in order to learn more about the American legal system and its policies and procedures. The legal concentration prepares students for work as a legal secretary or as an office worker in a local, state, or federal government office. At the end of their program, students will be placed in a cooperative work experience (internship) to further prepare them for the workforce.

Students in the AOT - Medical Coding/Billing learn fundamental medical coding skills for professional services (e.g., physicians and mid-level providers) and prepare for the AAPC's CPC exam. The program covers CPT, HCPCS and ICD-10-CM coding and assures a broad knowledge in reviewing and assigning the correct procedure and diagnosis codes for professional services. It prepares the student for an entry-level position in medical coding and billing.

The AOT – Medical Concentration is designed to prepare students for office work in the medical field, including physicians' offices and hospitals. In addition to their AOT courses, students will complete courses in medical terminology, medical documentation, and electronic medical records. At the end of the program, students will be placed in a cooperative work experience (internship) to further prepare them for the workforce.

## Requirements

Courses	Course Title	Credit Hours
<b>General Education</b>		
ENG 101	English Composition I	3
ENG 165	Professional Communications	3
or ENG 102	English Composition II	
MAT 155	Contemporary Mathematics	3
or MAT 120	Probability and Statistics	
Elective Behavioral Science ( <a href="https://catalog.ptc.edu/student-handbook/advising-registration/general-education-courses/">https://catalog.ptc.edu/student-handbook/advising-registration/general-education-courses/</a> )		3

Elective Humanities/Fine Arts ( <a href="https://catalog.ptc.edu/student-handbook/advising-registration/general-education-courses/">https://catalog.ptc.edu/student-handbook/advising-registration/general-education-courses/</a> )		3
Subtotal		15
<b>Required Core Subject Areas</b>		
AOT 105	Keyboarding	3
AOT 133	Professional Development	3
AOT 161	Records Management	3
AOT 165	Information Processing Software	3
CPT 101	Introduction to Computers	3
Subtotal		15
<b>Other Courses Required for Graduation</b>		
AOT 180	Customer Service	3
COL 103	College Skills	3
CPT 172	Microcomputer Database	3
CPT 274	Advanced Microcomputer Spreadsheets	3
IST 281	Presentation Graphics	3
<b>Select a Concentration option below</b>		<b>21</b>
<b>Accounting Concentration - AOA3</b>		
ACC 101	Accounting Principles I	
ACC 102	Accounting Principles II	
ACC 240	Computerized Accounting

## Application and Advising

If you are ready to start your education, there are a few simple steps involved in enrolling at Piedmont Technical College.

Get Started Today (<https://www.ptc.edu/admissions/new-students/>)

## Advising Information

The following information provides a guide for advisors who are helping students enroll in this program.

## Program Notes

This program can be completed on a part-time or full-time basis. Many classes are available online, and students can start any semester.

Students may only choose one concentration at a time: Accounting, Legal, Medical Coding/Billing or Medical. Other concentrations may be completed subsequently, if desired.

## Notes About Individual Classes

- AOT 105 should be taken during the first semester. An exemption test is available for students with very strong keyboarding skills. Contact program coordinator for more information on the exemption test.
- Students should have a computer or access to one. Keyboarding and computer literacy are strongly recommended.
- College policy states that computer coursework is valid for eight years.

## Program Student Learning Outcomes

### Purpose Statement

The Administrative Office Technology program with concentrations in accounting, legal, medical, and medical coding/billing concentrations in Administrative Office prepare students for office positions in a variety of businesses, including accounting firms; local, state, or federal government offices; and health care facilities. In each concentration other than medical coding/billing, students complete a cooperative work experience (internship) to further prepare them for the workforce.

## Program Student Learning Outcomes

1. Demonstrate independent application of computer software in the business environment.
2. Perform contemporary office management processes and procedures accurately and independently.
3. Demonstrate appropriate business behavior compatible with job demands.
4. Apply professional business concepts to career situations.
