

STRATEGIC PLAN

Piedmont Technical College Strategic Plan 2022-2025

The Strategic Plan contains two primary sections. The first section contains the mission, vision, and core values of the institution. The second section contains the goals, strategies, and tactics of the strategic plan. The goals, strategies, and tactics are addressing student and community access and success, workforce development, and organizational sustainability.

In developing this strategic plan, numerous listening and discussion sessions occurred from May through August 2021. These sessions incorporated key constituents from all counties served by PTC.
