

## STUDENT EMPLOYMENT SERVICES

---

Assistance with finding employment is available to all current and former students. Priority is given to recent graduates of the college and those students nearing completion. Services include:

- Notification of job openings via the “Jobs At A Glance” web page.
- Coordination of campus recruiting by business and industry representatives, including an annual job fair which is held during the spring term. This event informs students of various types of career opportunities and allows faculty and students to interact with company representatives.
- Assistance with job search strategies, resume preparation and interviewing skills.

Please call (864) 941-8377 to schedule an appointment to discuss any of the above services. Although Piedmont Technical College cannot guarantee anyone a job, all efforts are made to assist students as much as possible. Students should remember that employers are looking for well-rounded individuals who will be dependable, effective and responsible employees. Faculty recommendations, grade point average and college involvement are also very important.
