

SCHEDULING CLASSES

PTC has a Class Scheduler program that will assist you in finding just the right schedule of classes to fit your individual needs. The Class Scheduler can be accessed through your Pathway account on the Student link.

The program allows you to generate a number of potential schedules within minutes. Once you have chosen the schedule that fits your needs, with just a few additional clicks, you can register for those classes immediately, as long as you have met the prerequisite requirements for each course and have no holds. Check your DegreeWorks and contact your academic advisor to determine the appropriate classes for your major, verify you have met all prerequisites and obtain your registration code before using the Class Scheduler.
